PROJECTS

[Credit Card Wallet](#) (Mini Full-Stack project)

This app allows you to store different credit/debit cards and apply basic operations like adding, updating (setting the default one), and removing cards.

Technologies: Javascript (ES6), HTML5, CSS3, Vue.JS, JSON, Webpack, Firebase, Bootstrap, Babel, Node.js, Jest, Github

[URL Summarizer](#) (Back-End project)

This application allows you to enter a root path and then look recursively for all the URLs within .md files. It also provides a command-based menu to select additional features like detecting broken URLs and basic statistics.

Technologies: Javascript (ES6), JSON, Babel, Node.js, Jest, CLI, OS Library, Github

[Social Network](#) (Mini Full-Stack project)

This app allows each user to post and read messages in private or public mode. It also allows us to log in through a Facebook or Google account and to apply basic operations like updating or deleting a user's post.

Technologies: Javascript (ES6), HTML5, CSS3, Vanilla JS, JSON, Firebase, Firestore, Babel, Node.js, Jest, Github

WORK EXPERIENCE

Social Program Coordinator, **Lima Town Hall**, Oct/2016 - Jan/2019 (02 yrs 03 mos)

Lima's Town Hall is the public organization responsible for managing the city of Lima.

- Created and updated a portfolio of public services like job public postings, emergency assistantship to natural disasters, local job fairs, among others.
- Developed and maintained new alliances with food, office items, and general services suppliers to the Mayor's department.
- Prepared and executed training to young Peruvians in order to help them prepare their resumes and connect them to job offers according to their skills.
